PROFILE

Motivated Software Developer Fresher with fundamentals in **Python programming** and **basic cloud computing concepts**. Demonstrates **adaptability, leadership qualities**, and **effective teamwork** through **hands-on project experience**. Passionate about **building simple, scalable applications**, **solving practical problems**, and **continuously learning modern technologies** to contribute to **innovative development teams**.

EDUCATION

B-Tech(CSE) Narsimha Reddy Engineering College CGPA: 7.6	Present Hyderabad
Intermediate NRI Junior College Percentage: 78%	2023 Hyderabad
SSC Sri Sai Vidyaniketan High School Percentage: 90%	2021 Hyderabad

SKILLS

Technical Skills — Python programming | HTML & CSS | SQL (basic) | Git | **AI / ML Basics** — Machine Learning (conceptual) | Artificial Intelligence (basic understanding) | **Cloud Skills** — Cloud computing basics | AWS (EC2, S3, IAM – basic) | Google Cloud (Compute Engine, Cloud Storage – basic) | **Personality Traits** — Adaptability | Leadership qualities | Team collaboration | Fast learner

PROFESSIONAL EXPERIENCE

Python Full Stack Developer – Virtual Intern EduSkills Foundation (AICTE – National Internship Portal)	07/2025 – 09/2025
• Finished a 10-week virtual internship focused on Python Full Stack development. • Worked on Python programming fundamentals, basic backend concepts, and web application structure. • Gained practical exposure through guided modules, hands-on tasks, and project-based learning. • Strengthened problem-solving skills, self-learning ability, and understanding of real-world development workflows.	

PROJECTS

Cloud-Based File Storage System	Present
• Built and enhanced a cloud-based file storage application enabling secure upload, download, and file management. • Integrated cloud object storage to reduce local storage usage and increase scalability and reliability. • Implemented basic authentication and secure file handling to control access and protect data. • Improved file accessibility and management efficiency through a simple, user-friendly interface	

CERTIFICATES

Python Programming – GeeksforGeeks: ☞ Successfully completed GeeksforGeeks' Python training program, gaining hands-on experience with core programming concepts and practical coding exercises.

AWS Cloud Practitioner Essentials – AWS Training & Certification: ☞ **Concluded** foundational training in cloud computing, AWS core services, security concepts, and basic cloud architecture.

Build and Deploy APIs with a Serverless CI/CD – AWS Training & Certification: ☞ Successfully completed AWS training focused on serverless API development and CI/CD deployment practices.
